

Vinod

18/03/21

He is very dedicated to the teachings. He allots extra time on all lessons to make sure the student really grasps the weeks lesson, making it easy to practice over the week till the next lesson. I am an adult residing in Kuching , Sarawak and he is from KL, yet his online classes are so good that it is like having a real teacher beside you. He uses excellent audio visual equipment for his teachings so all online classes have been extremely smooth and with no communication disruptions. His years of experience serves well as he is able to render the lesson and acknowledge the mistakes instantly and provide immediate rectification. I enjoy my classes with him and hope to learn the piano in record time under his tutelage.
