I am an adult enrolled in this mandarin class with Mr. Donovan. I am currently working in a medical field which requires me to speak to mandarin speaking clients. I took medical chinese language classes with Mr Donovan, it is conducted online which is convenient as I have a tight schedule due to work. Based on the classes with Mr Donovan, I can vouch that he is very passionate about teaching. Every class that he delivers are concise and he provides suitable materials for you to learn before classes. He is able to draw your attention by making the class more captivating in various ways. His professionalism is commendable because of the way he conducts the classes on time and well mannered in guiding me. Online classes with Mr Donovan are both practical and extremely convenient.
