Very thorough in preparation of teaching materials and very attentive to details. I'm currently a student of Master's degree in MBA, studying English with Kwan. The teaching materials prepared are highly useful and relevant to my MBA Course. I can easily understand the teacher's teaching, the teacher communicated clearly and effectively to me. My 3 children, including a secondary school student, are currently learning with Kwan too. He is very patient with them. Lessons are fun and inspiring. Kwan also give me and my children

Chat

extra lesson time for each lesson. I and my children can easily understand the teacher's teaching very well. Teacher is able to pinpoint weaknesses, give advices and improve them. Thus, from my point of view, Kwan is very qualified and experience in teaching English to varied English levels of various learners. He is very dedicated and responsible educator who genuinely care about students' learning. I highly recommend Kwan for almost any level of English learning. Bravo!
