I am an adult. Working in the automotive sales industry. I am learning Spoken Cantonese from Mr Kwan. The lessons provided is through online video call. It's been 3 months already since I started to learn from him. Before I join Mr Kwan's Lessons, my knowledge of Cantonese was completely zero. After a while, I noticed that I could possibly understand my colleagues speaking to each other. it's not that much, but that is what i can say good progress for me. I feel there is so much improvement week after week. this has been useful in my daily working life. Online lessons from Mr Kwan are very effective. Mr Kwan's passion, commitment, dedication, patience, flexibility in lesson rescheduling, communication (clarity in lesson delivery), organization (notes/learning material given to me), professionalism (manners in speaking, answering my doubts and replies; timeliness in starting lessons), generosity in extra lesson time given to me in his teaching is way up to the standard and unexpected. His styles of teaching i.e. friendliness, engagement, hands-on & practical approach are very straightforward and easy to communicate. In conclusion, I would highly recommend Mr Kwan to be your Cantonese teacher. I believe his other lessons will definitely be the same standard and teaching style as well.
